BULLETIN 2026-1

To: Insurers Offering a Health Benefit Plan
From: Jonathan T. Pike, Insurance Commissioner
Date: February 26, 2026
Subject: **Calendar Year 2027 Insulin Prescription Caps**

The Utah Insurance Department issues this Bulletin under Utah Code § [31A-22-626](#), Coverage of diabetes, and Utah Admin. Code [R590-200](#), Diabetes Treatment and Management. This Bulletin notifies an insurer offering a health benefit plan of the annual inflation adjustment cap on the average wholesale price for insulin.

A policy issued or renewed during the 2027 calendar year with a 30-day prescription supply must offer at least one insulin in each therapy category. A 30-day prescription supply cap is set at \$5.00 for § 31A-22-626(4)(a) and \$30.00 for § 31A-22-626(6)(b).

The insulin cap is calculated using data provided by the Public Employees Health Plan (PEHP). PEHP calculated the Average Wholesale Price per Milliliter (AWP/mL) of insulin for calendar years 2019 through 2025. PEHP included all insulin modes and therapy categories in the calculation.

| Calendar Year | Avg AWP/mL | % change in AWP/mL |
|---------------|------------|--------------------|
| 2019 | \$40.18 | n/a |
| 2020 | \$37.86 | -5.8% |
| 2021 | \$36.30 | -4.1% |
| 2022 | \$36.82 | 1.4% |
| 2023 | \$37.24 | 1.1% |
| 2024 | \$14.45 | -61.2% |
| 2025 | \$13.30 | -8.0% |

For 2027 plans, the \$30 and \$100 caps in place for 2021 are adjusted as follows:

2027 cap = (2025 Avg AWP/mL / 2019 Avg AWP/mL) * Base Cap

or

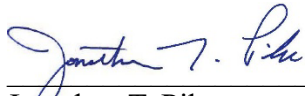

2027 low cap = (13.30 / 40.18) * \$30 = \$9.93, rounded down to the nearest multiple of five dollars = \$5

2027 high cap = (13.30 / 40.18) * \$100 = \$33.10, rounded down to the nearest multiple of five dollars = \$30

The price of insulin through the Utah Insulin Savings Program, under § 31A-22-626(6)(a), is available at <https://www.utahinsulin.net/>.

An insurer with questions about this Bulletin is advised to contact the Health and Life Division at health.uid@utah.gov.

DATED this 26th day of February 2026.
