R590. Insurance, Administration.
R590-143. Life And Health Reinsurance Agreements.
R590-143-1. Authority.
This rule is adopted and promulgated by the commissioner pursuant to Section 31A-2-201.

R590-143-2. Scope.
This rule shall apply to all domestic life and accident and health insurers and to all other licensed life and accident and health insurers which are not subject to a substantially similar rule in their domiciliary state. This rule shall also similarly apply to licensed property and casualty insurers with respect to their accident and health business. This rule does not apply to assumption reinsurance, yearly renewable term reinsurance or certain nonproportional reinsurance such as stop loss or catastrophe reinsurance.

R590-143-3. Accounting Requirements.
A. No insurer subject to this rule may, for reinsurance ceded, reduce any liability or establish any asset in any financial statement filed with the department if, by the terms of the reinsurance agreement, in substance or effect, any of the following conditions exist:

(1) Renewal expense allowances provided or to be provided to the ceding insurer by the reinsurer in any accounting period, are not sufficient to cover anticipated allocable renewal expenses of the ceding insurer on the portion of the business reinsured, unless a liability is established for the present value of the shortfall (using assumptions equal to the applicable statutory reserve basis on the business reinsured). Those expenses include commissions, premium taxes and direct expenses including, but not limited to, billing, valuation, claims and maintenance expected by the company at the time the business is reinsured;

(2) The ceding insurer can be deprived of surplus or assets at the reinsurer's option or automatically upon the occurrence of some event, such as the insolvency of the ceding insurer, except that termination of the reinsurance agreement by the reinsurer for nonpayment of reinsurance premiums or other amounts due, such as modified coinsurance reserve adjustments, interest and adjustments on funds withheld, and tax reimbursements, is not considered to be such a deprivation of surplus or assets;

(3) The ceding insurer is required to reimburse the reinsurer for negative experience under the reinsurance agreement, except that neither offsetting experience refunds against current and prior years' losses under the agreement nor payment by the ceding insurer of an amount equal to the current and prior years' losses under the agreement upon voluntary termination of in force
reinsurance by the ceding insurer shall be considered such a reimbursement to the reinsurer for negative experience. Voluntary termination does not include situations where termination occurs because of unreasonable provisions which allow the reinsurer to reduce its risk under the agreement. An example of such a provision is the right of the reinsurer to increase reinsurance premiums or risk and expense charges to excessive levels forcing the ceding company to prematurely terminate the reinsurance treaty;

(4) The ceding insurer must, at specific points in time scheduled in the agreement, terminate or automatically recapture all or part of the reinsurance ceded;

(5) The reinsurance agreement involves the possible payment by the ceding insurer to the reinsurer amounts other than from income realized from the reinsured policies. For example, it is improper for a ceding company to pay reinsurance premiums, or other fees or charges to a reinsurer which are greater than the direct premiums collected by the ceding company;

(6) The treaty does not transfer all of the significant risk inherent in the business being reinsured. The following table identifies for a representative sampling of products or type of business, the risks which are considered to be significant. For products not specifically included, the risks determined to be significant shall be consistent with this table.

Risk categories:
(a) Morbidity
(b) Mortality
(c) Lapse

This is the risk that a policy will voluntarily terminate prior to the recoupment of a statutory surplus strain experienced at issue of the policy.

(d) Credit Quality (C1)
This is the risk that invested assets supporting the reinsured business will decrease in value. The main hazards are that assets will default or that there will be a decrease in earning power. It excludes market value declines due to changes in interest rate.

(e) Reinvestment (C3)
This is the risk that interest rates will fall and funds reinvested (coupon payments or monies received upon asset maturity or call) will therefore earn less than expected. If asset durations are less than liability durations, the mismatch will increase.

(f) Disintermediation (C3)
This is the risk that interest rates rise and policy loans and surrenders increase or maturing contracts do not renew at anticipated rates of renewal. If asset durations are greater than
the liability durations, the mismatch will increase. Policyholders will move their funds into new products offering higher rates. The company may have to sell assets at a loss to provide for these withdrawals.

* LTC = Long Term Care Insurance  
  LTD = Long Term Disability Insurance

(7)(a) The credit quality, reinvestment, or disintermediation risk is significant for the business reinsured and the ceding company does not (other than for the classes of business excepted in Paragraph (7)(b)) either transfer the underlying assets to the reinsurer or legally segregate such assets in a trust or escrow account or otherwise establish a mechanism satisfactory to the commissioner which legally segregates, by contract or contract provision, the underlying assets.

(b) Notwithstanding the requirements of Paragraph (7)(a), the assets supporting the reserves for the following classes of business and any classes of business which do not have a significant credit quality, reinvestment or disintermediation risk may be held by the ceding company without segregation of such assets:
The associated formula for determining the reserve interest rate adjustment must use a formula which reflects the ceding company's investment earnings and incorporates all realized and unrealized gains and losses reflected in the statutory statement. The following is an acceptable formula: Rate = 2 (I + CG)/(X + Y - I - CG); Where: I is the net investment income CG is capital gains less capital losses X is the current year cash and invested assets plus investment income due and accrued less borrowed money. Y is the same as X but for the prior year.

(8) Settlements are made less frequently than quarterly or payments due from the reinsurer are not made in cash within 90 days of the settlement date.

(9) The ceding insurer is required to make representations or warranties not reasonably related to the business being reinsured.

(10) The ceding insurer is required to make representations or warranties about future performance of the business being reinsured.

(11) The reinsurance agreement is entered into for the principal purpose of producing significant surplus aid for the ceding insurer, typically on a temporary basis, while not transferring all of the significant risks inherent in the business reinsured and, in substance or effect, the expected potential liability to the ceding insurer remains basically unchanged.

B. Notwithstanding Subsection A, an insurer subject to this rule may, with the prior approval of the commissioner, take such reserve credit or establish such asset as the commissioner may deem consistent with the Insurance Code and Rules including actuarial interpretations or standards adopted by the Department.

C.(1) Agreements entered into after the effective date of this rule which involve the reinsurance of business issued prior to the effective date of the agreements, along with any subsequent amendments thereto, shall be filed by the ceding company with the commissioner within 30 days from its date of execution. Each filing shall include data detailing the financial impact of the transaction. The ceding insurer's actuary who signs the financial statement actuarial opinion with respect to valuation of reserves shall consider this rule and any applicable actuarial standards of practice when determining the proper credit in financial statements filed with this department. The actuary should
maintain adequate documentation and be prepared upon request to
describe the actuarial work performed for inclusion in the
financial statements and to demonstrate that such work conforms to
this rule.

(2) Any increase in surplus net of federal income tax
resulting from arrangements described in Subsection C(1) shall be
identified separately on the insurer's statutory financial
statement as a surplus item (aggregate write-ins for gains and
losses in surplus in the Capital and Surplus Account, page 4 of
the Annual Statement) and recognition of the surplus increase as
income shall be reflected on a net of tax basis in the
"Reinsurance ceded" line, page 4 of the Annual Statement as
earnings emerge from the business reinsured. (For example, on the
last day of calendar year N, company XYZ pays a $20 million
initial commission and expense allowance to company ABC for
reinsuring an existing block of business. Assuming a 34% tax
rate, the net increase in surplus at inception is $13.2 million
($20 million - $6.8 million) which is reported on the "Aggregate
write-ins for gains and losses in surplus" line in the Capital and
Surplus account. $6.8 million (34% of $20 million) is reported as
income on the "Commissions and expense allowances on reinsurance
ceded" line of the Summary of Operations.

At the end of year N+1 the business has earned $4 million.
ABC has paid $.5 million in profit and risk charges in arrears for
the year and has received a $1 million experience refund. Company
ABC's annual statement would report $1.65 million (66% of ($4
million - $1 million -$.5 million) up to a maximum of $13.2
million) on the "Commissions and expense allowance on reinsurance
ceded" line of the Summary of Operations, and -$1.65 million on
the "Aggregate write-ins for gains and losses in surplus" line of
the Capital and Surplus account. The experience refund would be
reported separately as a miscellaneous income item in the Summary
of Operations.)

R590-143-4. Written Agreements.

A. No reinsurance agreement or amendment to any agreement
may be used to reduce any liability or to establish any asset in
any financial statement filed with the department, unless the
agreement, amendment or a binding letter of intent has been duly
executed by both parties no later than the "as of date" of the
financial statement.

B. In the case of a letter of intent, a reinsurance
agreement or an amendment to a reinsurance agreement must be
executed within a reasonable period of time, not exceeding 90 days
from the execution date of the letter of intent, in order for
credit to be granted for the reinsurance ceded.

C. The reinsurance agreement shall contain provisions which
provide that:

(1) The agreement shall constitute the entire agreement between the parties with respect to the business being reinsured thereunder and that there are no understandings between the parties other than as expressed in the agreement; and

(2) Any change or modification to the agreement shall be null and void unless made by amendment to the agreement and signed by both parties.

R590-143-5. Existing Agreements.
Insurers subject to this rule shall reduce to zero by June 30, 1997 any reserve credits or assets established with respect to reinsurance agreements entered into prior to the effective date of this rule which, under the provisions of this rule would not be entitled to recognition of the reserve credits or assets; provided, however, that the reinsurance agreements shall have been in compliance with laws or rules in existence immediately preceding the effective date of this rule.

R590-143-6. Severability.
If a provision of this rule or its application to any person or circumstance is for any reason held to be invalid, the remainder of the rule and the application of such provisions is not effected.
